

Community Champions Captions

Thank you for supporting Netsafety Week 2026.

Ways you can play your part

Netsafety Week is happening 17–23 August 2026. This year's theme Online Safety is a Team Sport – Play Your Part, reminds us that creating safer online spaces is something we all contribute to. Whether you're a school, workplace, library, community group or organisation, every action helps build a safer internet for everyone.

Below is a ready-to-use message to help you promote Netsafe Community Champions.

Every community has someone making a difference online.

They might be helping people spot scams, supporting young people through online challenges, promoting respectful online behaviour, or building digital confidence in their community.

This Netsafety Week, we're celebrating the people and organisations helping create safer online spaces across Aotearoa New Zealand.

Know someone who deserves recognition? Nominate them as a Netsafe Community Champion. Or, if you're making a difference in your community, nominate yourself.

Nominations close 24 July.

Nominate here:
